"The Coin Machines Merry-Go-Round"

HIGHER PRICES = NEW COMMISSION BASIS

By Bill Gersh

There are many in the trade who are much amazed that prices of the new equipment will be much higher than what similar machines sold for pre-war. This should not come as a surprise to anyone in the industry. The facts are that the costs of materials and labor have risen to such an extent that the average manufacturer can no longer gauge his production costs in advance.

Certain manufacturers have also been forced to suddenly change their cost sheets after they called in their suppliers. Others have learned that there was no longer a definite and set price on the parts and supplies which they were already receiving.

For example, one manufacturer has learned, much to his dismay, that he now has to increase the original price of his first new machine. Only because his supply firms have advised him that the prices they originally quoted him are now out of line and have to be increased.

This has created a very definite alteration in all price quotation. It is rumored thruout the trade that one new slot machine, as an example, will be more than double the former price this firm charged for its products. This has to be expected by the industry. The trade must realize that similar price quotations are going on everywhere in the country by manufacturers in all other industries. None are safe from labor and materials cost increases.

The music machine men are now of the belief that there will not be new phonos at less than \$500 on the market. Some believe that the new phonos may even be introduced at \$700 or more. They foresee an entirely new type of operation coming into effect because of these higher prices. They also foresee the need for strong organization to protect locations which will have to amortize such higher priced equipment.

Eventually, it is expected, prices will adjust themselves to a normal base. But this will not become fact for a long, long time to come. Not with the present contracts demanded by labor, nor the fact that high general taxation remains in effect.

Higher prices are bringing about an entirely new type of merchandising. This was more or less expected by everyone in the trade. Prior to the end of the war, this medium advised that many changes could be expected in the merchandising methods which would come into vogue with the new, post-war machines. Already there is a franchise plan introduced for operation of new equipment. Many new distributors have also been brought into the picture. And this isn't all the change which can be expected when the post-war era really gets going.

The used machine dealer is not at all upset by these higher prices for the new machines. He feels that this will keep him doing more business than he could have expected. The facts are that already sales are returning in good volume in certain areas to used machine wholesalers. These men are becoming more optimistic daily. They now believe that they will continue on for a long, long time to come.

Back of all this price problem is the fact that the equipment of this industry is based on income producing power. For example, a machine can be built of platinum and feature the finest and most precious jewels yet if it doesn't earn sufficient profit on location it has little or no value to the trade. Likewise, a machine built from a cardboard box and held together with staples, but a machine which earns gobs of money on location, can practically command its own price from this field.

"The Coin Machines Merry-Go-Round"

This has been proved to be the case time and time again. The members of this field were actually stunned some years ago by a console which was introduced at an extremely high price—but, after it had been location tested, the price no longer mattered.

This will have to be the case for all new equipment. If it can earn more than the equipment now on the location, it will be worth the difference in price. Amortization of the machine must be the big factor taken into consideration. New equipment must be able to amortize itself within the period which the operator designates. And show him a profit.

It is doubtful whether the higher prices which are being asked are going to hold back sales to any appreciable extent, as some claim they will. There are those who do not look far enough ahead to realize that as a new machine gradually surrounds any of their locations, their location owners, too, are going to demand it. And the location owner is not interested in what the machine costs the operator. But, if the operator does not give him what he wants—he'll either buy his own machine—or call in someone who will give him the equipment he wants and that his competitors are featuring.

The members of this industry should now realize that they must make better commission arrangements with the average location to take care of the higher cost of the new equipment. For a long time now The Cash Box has urged coinmen to arrange for a more equitable commission basis with location owners. For example, there should never be 50%-50% split on automatic phonos. This is entirely unsound, according to present day conditions.

The operator's cost of records, supplies, labor, parts, rent, and all general overhead, has risen far above 20% additional to his former costs. Today, then, by giving the location owner 50% of the gross take from a phonograph, he is actually giving that location owner better than 70% for his end. In short, because of increased overhead costs he is working on less than 30%—not 50% of the gross. And, with license fees added, he is working on even a smaller margin each and every day.

The one and only answer to the higher cost of new equipment, the higher cost of labor, supplies, parts, rent, tires, trucks, etc., etc., is to arrange for a 70%-30% commission basis with all locations. The operator must today receive 70% of the gross and the location owner 30%. In this way the operator will find that he can safely handle the higher priced machines.

The Cash Box persists in its belief that the only way in which the average operator will be able to conduct his business on a safe and sound basis will be by arranging for this new commission set-up. (The Cash Box has urged this new commission basis arrangement to the trade for over three years now. It feels that this has become of vital importance to the continued well being of the men in the industry.)

How can the average operator, anywhere in the nation, expect to pay around \$700 for a new automatic phonograph and pay about 50% above pre-war prices for his records, supplies, parts, labor and general overhead, and still continue to operate on a 50%-50% basis with the location owner? Yes, there may be a few locations in each territory, the very best, the top locations, where such a commission basis is feasible. But the average location does not deserve such a commission arrangement.

The 50%-50% commission basis simply cannot work out anymore!

There is nothing the manufacturers can do at this time to lower the costs of the new products they are producing. Labor demands a very healthy share of each product. Materials suppliers (who also have labor problems) also want more than ever formerly received for their supplies. In addition, other overhead costs have tremendously risen for all manufacturers and they must, therefore, add this to the price of the machines which they are producing. It will be a long, long time before they will be able to bring prices down to a basis more comparative to pre-war.

Therefore, the men in this industry who are out on locations each day, must make arrangements such as The Cash Box has urged they make during the wartime period, while it was so much easier to make them. All coinmen must realize that they cannot continue on ahead on their present commission basis with their location owners. They simply won't be able to amortize their equipment nor, especially, profit from it.

For example, it is believed that the average (which is unusually high today) on a national basis is about \$7 per week per phono. This means that the operator on the average location can amortize a machine costing him \$546 in 18 months, the usual amortization period for an automatic phono. How, then, will he plan to amortize a \$700 machine unless he arranges a better commission basis during this same 18 months period which he sets aside to amortize the cost of his equipment?

The 70% to the operator—30% to the storekeeper—commission basis should go into immediate effect all over the nation, before the new machines are produced in volume—if for no other reason—than to offset the higher prices and the tremendously increased overhead music machine coinmen are now enduring.

AIREON SHOWS NEW PHONOS

FIRST PREVUE SHOWING BRINGS OVER 100 OF NATION'S DISTRIBS
TO K.C. NEW PHONOS FEATURING ELECTRONIC PRINCIPLES WIN HIGH PRAISE

KANSAS CITY, KANS. — The first prevue showing of what the new post-war phonos and remote control systems will look like was conducted at the sales showrooms of the Aireon Manufacturing Corp., this city, by R. R. (Rudy) Greenbaum, Vice-President and General Salesmanager of the firm.

Over 100 of the nation's leading music distributors were present. The applause which greeted the unveiling of these three new phonos was loud and enthusiastic. The men were not only excited, but many stated that this was what they had dreamed about. "These new post-war models open an entirely new path for the music machine trade," claimed the distributors who saw the equipment for the first time.

All Aireon's regional directors and many of their district managers were present. Also on hand from the firm were: Arthur E. Welsh, Executive Vice-President; Dr. C. N. Kimbell, noted scientist and also vice-president of the firm; Mike Dutton, works manager; R. R. Renner and Bob Johnson of the credit department.

The meeting was opened in the large showrooms of the firm at 1233 Grand Ave., with Rudy Greenbaum addressing the audience and telling them of the fact that some five months ago the organization decided to enter into the "juke" box business and now were ready to show its new models.

From here, Rudy went on to tell the story of electronic principles which were discovered and used by the firm in their radar and counter radar work during the war. He then asked Bill Brase to remove the covers from the phonos. These were presented as "Aireon Fiesta", "Aireon Artisan" and "Aireon Airliner".

Thruout the war the Aireon Company supplied the armed forces with thousands of units of radio and radar equipment, some of which are still on the government's hush-hush list. Experience gained during this time has now been utilized by the company for gearing to all out production on automatic phonographs. Among those innovations incorporated into the phonograph are the "tonal arch" arrangement in the speakers; the AVC principle (Automatic Volume Control); keyboard visibility; and lighting effects creating optical illusion. The wall boxes work on a single wire coaxial cable principle, which is likened to the counter radar devices, as explained by Dr. Kimbell.

The designs were created by Raymond Loewy, world-famed New York designing firm, and were a combination of those chosen on the national trip made by Rudy Greenbaum some months ago. Distributors are being set up all over the country.

The firm announced the set up of Regional Sales managers and District Sales managers. The Regional managers are W. E. Simmons, Hollywood, Calif.; Ralph E. Rigdon, Shelbyville, Ind.; Ben Palastrant, Boston, Mass.; Frank Q. Doyle, Miami, Fla.; J. McEwen Cherry, Nashville, Tenn., and Fred A. Mann, Chicago, Ill. The District men are Clayton Ballard, Portland, Ore.; Sam Weinstein, Philadelphia, Pa.; Myrl A. Park, San Diego, Calif.; Clifford D. Kemp, Denver, Colo.; R. H. Cherry, Nashville, Tenn.; Aubrey V. Stemler, Van Nuys, Calif.; Ed Wisler, Los Angeles, Calif.; and J. W. Harwell, Nashville, Tenn.

GOTTLIEB CALLS CMI MEET

Members to Gather November 14 at CMI Headquarters

CHICAGO — Dave Gottlieb, President of CMI has called a meeting of the members of the Association for Wednesday, November 14 at 7:30 P.M. The meet will be held at the association headquarters, located at 134 North La Salle St., right across the street from the Sherman Hotel, in room 508.

Among the subjects expected to be discussed is the holding of a convention during 1946, and if there is agreement among the members, just when the best date would be.

Some of the manufacturers are of the opinion that if a date were set, it would help by reducing the large number of visitors now arriving in Chicago. Altho the factories give everyone the greatest courtesy, a great deal of time is lost which is needed at this time to get the factories running smoothly on the new equipment. They believe that a great many coinmen, if they expected to visit Chicago for a convention, would wait until that time.

LOCATION SELLING STARTS WAR

BRECKENRIDGE, TEXAS — A war between two operating companies in Texas seems to be in the offing, and the only result will be detrimental to them both. "Jimmie" Jones the "Cowgirl op" writes: "A Fort Worth operator has just sold a location in our town an old Twin Twelve Wurlitzer. Not only that, but he came here and installed it for them. I have a good mind to repay him for this bit of unethical business by going into Fort Worth, and selling some of his locations a machine."

After a conference with hubby "Cadillac", they are undecided, only because they know it will only harm the biz in general. "However, if this operator continues this direct location selling practice, we'll certainly go after him", adds Jimmie.

AMERICAN DIST. OPENS IN JOHNSTOWN

JOHNSTOWN, PA. — M. Abelson, head of American Distributors, Pittsburgh, Pa. announces that he is opening an office in Johnstown, Pa., which will be headed by the well known Abe Stept.

The new modern display rooms will be located at 423 Franklin St., and Stept will distribute phonographs, amusement games, vending machines, and salesboards. Coinmen in the territory are invited by Stept to make his offices their headquarters at all times.

Abe Stept has been active in the Pennsylvania territory for the past fifteen years and knows all the coinmen.

CARTER HAS AIREON FOR SAN JOAQUIM

LOS ANGELES, CALIF. — F. P. (Nick) Carter of the Nickabob Sales Co., this city, is opening offices in Fresno to handle the new Aireon Manufacturing Corp. line of phonos and remote control equipment for the San Joaquin Valley.

Carter is very excited over the Aireon line, and expects to do considerable business.

RECORD SITUATION BAD IN ST. LOO

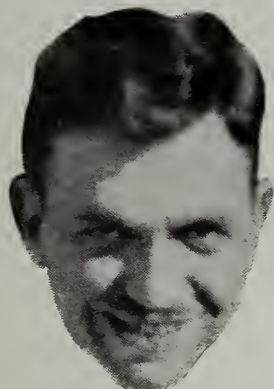

ST. LOUIS, MO. — Carl Trippe, nationally known coinman, and head of Ideal Novelty Co., this city, is really burned up at his record distributors. Carl writes:

"I would like to give the industry some dope on how the record companies are operating in this city. They have taken out all the listening booths here. They won't let anybody play the records. You have to take them as is, without hearing them. And in addition, you have to order 10 at a time. They don't let you take less than 10. In other words, if you get a record that you don't like, you're stuck with ten of them."

WOLCHER AND WOLF SHARE COAST

AMI DISTRIBUTORS ON WEST COAST APPOINTED

CHICAGO — DeWitt (Doc) Eaton, General Sales Manager of A.M.I. announced this week the appointment of two of the nation's foremost distributors to handle the distribution of the A.M.I. music machine on the West Coast. Lou Wolcher, Advance Automatic Sales Co., San Francisco, Calif. will cover the territories of North California, and the states of Washington and Oregon. M. S. (Bill) Wolf, California Amusement Co., Los Angeles, Calif. will cover the South California territory and the state of Arizona.

Lou Wolcher

"These two splendid organizations" Doc stated "will split the West Coast territory, and the operators can look for the highest possible cooperation and service from both. Lou Wolcher needs no introduction to the trade, as his reputation as a leader in the coin machines industry is known thruout the entire country, as well as Hawaii and Australia. Bill Wolf, equally well-known and respected by all ops on the coast, is one of A.M.I.'s oldest distributors, and has been doing a terrific job with our equipment for many years."

"Music operators" continued Eaton "in both Bill's and Lou's territory are particularly fortunate, as they will be able to consult with men who have never let a customer go astray. We look for big things from the West Coast."

NEW RECORDING CO. ENTERS FIELD

NEW YORK — A new recording company, Sterling Records, Inc., announced their entry into the field this week. Headed by Al Middleman, creator and former head of the "Hit" Records, and Ben Siegel, Vice-President, this company will specialize in Classic Jazz and Race Records. This organization will operate its own ultra-modern plant, set up for volume production and will maintain a schedule of a new release every three weeks.

According to Mittleman "There will always be a big demand for good Classic Jazz and Race Records. It is a field in which the insistent demand has been filled haphazardly, and we believe there is room for a label which will cater to that demand efficiently."

NEW PHONE NOS. FOR THE CASH BOX

NEW YORK CITY — The telephone numbers of The Cash Box have been changed to MUrray Hill 4-7797 - 7798 - 7799. We ask our friends to make this change on their records.

AUTOMATIC FOOD STORE READY

MEMPHIS, TENN. — An automatic machine food store idea has been perfected by Clarence Saunders, one time organizer of the nationally known Piggly Wiggly chain.

After a decade of experiments, claimed to have cost \$600,000., the vender called "Keedoozle" is said to be in working stage. Automatic Electric Co., Chicago, has contracted to set up a model store in that city to begin actual test operations around December 1. It will be open to the public probably by next April. A full sized store also will be opened in Memphis, Tenn. by next spring.

Here's how the machine works: the customer uses a gun-shaped object called the "key" (equipped with a roll of paper) which is inserted in a slot with a number corresponding to the grocery item shown in a glass-enclosed case; pressing a nearby button, the customer makes a purchase. The key then records on paper the name of the item, the price and some code dots.

When the order is finished, the key is taken to the cashier's counter, where a translator de-ciphers the code (code dots cause electrical impulses to set into operation action distribution mechanism). The grocery order slides down 4 conveyor belts and arrives at the counter assembled, totaled and ready for packaging. It is said the code tape can trip 20 items in 4 seconds and can be made to work even faster.

AN APPEAL TO ALL MUSIC OPERATORS IN THE UNITED STATES

By GEORGE A. MILLER, State Pres.,
California Music Operators Assn., Oakland, Calif.

Each and every operator in the United States should acquaint himself with the bill known as the Buckley Bill, H.R. 3190. This bill was introduced and referred to the Committee, on Patents, May 11, 1945 but the bill, like many others, was so outlandish that the music operators gave little thought to it. We learn through the interest and cooperation of the Cash Box and other coin machine magazines that the bill is very serious to the automatic music business and should it be passed in its entirety it would do nothing more than to heap further taxation on the already heavily taxed phonograph business. The bill is to amend the act entitled "An act to amend and Consolidate the Acts Respecting Copyright" approved March 4, 1909 as amended. In other words automatic phonographs at the present time are not deemed to be a public performance for profit unless a fee is charged for admission to the place where such reproduction or rendition occurs but should the amendments as the Buckley Bill proposes be passed by Congress, automatic phonographs could be classed the same as any other public places of entertainment and would be subject to a tax arrived at by a certain group on all copyrighted discs, phonograph records, music by wire, etc. It is to be remembered that this bill is not clear, however reading between the lines, any kind of copyrighted music, regardless of how played over automatic equipment, would be subject to taxation.

The writer feels that each and every music operator in the United States should get a copy of this bill from Washington, D. C. and study it very carefully and after doing so should write to the Congressmen and United States Senators from his district demanding that this particular bill, known as the Buckley Bill, No. H.R. 3190, be defeated.

The writer further would like to state that the music operators in the state of California have already organized a move to defeat this bill and each and every operator in the state of California has written or is writing to the various congressmen at this particular time demanding the defeat of this kind of legislation.

The California Music Operators Association has also written to the Congress in regard to the \$10.00 Federal Tax on each and every phonograph in the United States, which was strictly a duration tax and was accepted as such because each and every music operator in the United States felt it his patriotic duty to support such legislation at that time. Now that the war is over the music operators expect the tax to be discontinued and will work toward that end, not alone on automatic phonographs but on other coin operated equipment as well.

Upon reading this article every operator in the United States should immediately write to his Congressman soliciting his support toward the defeat of these particular bills. Never before has there been anything so vitally important to the operators as the defeat of this legislation. The writer urges that each and everyone of you act and act now.

CAPEHART INJURED IN COLLISION

INDIANAPOLIS, IND. — Senator Homer E. Capehart was injured in a head-on automobile collision near Indianapolis Tuesday, Oct. 30. "Cape" suffered a broken left ankle, cuts on the face and a badly lacerated tongue.

He is now being hospitalized at the Methodist Hospital, Indianapolis.

MAJESTIC RECORDS BUY NEW PLANT

BURBANK, CALIF. — James J. Walker, president of Majestic Records, Inc. announced that a new plant devoted exclusively to the pressing of its own records will be constructed here.

This plant will supplement production now being handled by the company's pressing plant in Newark, N. J. and that of a new factory at Elgin, Ill., expected to be opened early next year.

LUMBER PLACED ON INVENTORY CONTROL

WASHINGTON — Lumber was placed under inventory control on October 28 by the War Production Board. The action was taken as part of the six-point program of Director John W. Snyder. This action was effected by a revision of Priorities Regulation No. 32, and is aimed at hoarders.

The inventory limitations apply to all persons who use lumber for production, operating supplies, maintenance or repair or for construction, both for their own account or for the account of another.

WPB called attention to restrictions on ordering more than needed as described in Paragraph (d) of the regulation and stressed the fact that these provisions apply to all persons whether buying for use or for resale. The regulation also prevents placing of orders with different suppliers which aggregate more than the buyer is permitted to receive even though he intends to cancel one or more of the orders before delivery.

The new restrictions on lumber, affecting receipts of seasoned, green, rough, surfaced and worked to pattern lumber of all kinds, sizes and grades, limit inventories to sixty days requirements or a practicable minimum, whichever is less.

BUILDING RACE ON IN L. A.

LOS ANGELES, CALIF. — There's a post-war building race on here. It seems that every leading jobber and distributor is out to improve, remodel or build new and outstanding offices and showrooms.

Bill Wolf of California Amusement Co. has purchased a very prominent corner and is constructing a brand new building, which he reports, will exceed in beauty and design his San Diego and San Francisco buildings. (And, by the way, his present quarters here are plenty impressive). The trade is eagerly looking forward to seeing these new quarters.

Charley Robinson of C. A. Robinson Co. has remodeled an old building which is something to see. It is truly Californian in every respect. Offices and showrooms are attractive and outstanding.

E. P. (Nick) Carter of the Nickabob Sales Co has also purchased a large and outstanding corner lot, and is constructing an entirely new building to house coin machines. Nick has some ideas of his own regarding a triple threat building with a single large loading platform that should prove unique.

Bill Happel of Badger Sales Co. just contracted for the reconversion of an old building here and from plans already discussed Bill is sure to have quarters among the most attractive in the country. Happel will make this building one of the largest being used for a coin machine company.

All these firms are locating on West Pico Blvd., which is "coinrow" now, but with these additional beautiful large buildings being readied, it will probably be the most outstanding coin street in the nation.

LOCATION SALES IN MONTREAL

MONCTON, CANADA — L. A. Reid, this city, brings to light a concerted effort of some coin machines company in Montreal who has been putting on a campaign to sell equipment to locations.

Reid writes "There is a concern in Montreal who is sending out circulars every few weeks selling music machines to the locations, and any other kind of equipment they have to sell. These circulars are mailed to every Tobacco store, Restaurant, Lunch counter, Novelty Store, etc. Montreal is noted for selling here in the wartime to the locations, where they get big prices."

It would pay the Montreal operators to find out who this company is, and then follow the plan worked by the Summit County Automatic Music Operators Assn. of Akron, O. (Story in the Oct. 15 issue of The Cash Box.)

CLARK BUYS AIR FLEET

LOS ANGELES, CALIF. — Here's the tipoff on what to expect in our business in the future. Clark Distributing Co., Wurlitzer distributors here, is putting in a fleet of three airplanes to handle their business in the modern tempo for the Los Angeles, San Francisco and Seattle offices.

They are buying the planes from army surplus war stock and will sign an ex-army pilot to take charge of the fleet. Don Clark is responsible for the trend which is sure to catch on more and more in the coin machine biz.

MIKE CARPEN GETS "GOOD WILL" BOND

LOS ANGELES, CALIF. — At an early morning gathering in Clem's Dinette on West Pico Boulevard this city, the following coinmen signed a "Good Will Bond" on John McGovern's Liberty Inn of Chicago, Ill. and sent it to Mike Carpen of Reading, Pa.: Charley Robinson, Bill Wolf, Fred Gaunt, L. B. McCreary and J. D. Turner.

These coinmen stated "We hope that Mike will soon cash this bond".

BILL GERSH ON WEST COAST

WEST COAST — Bill Gersh, publisher of The Cash Box, will be on the West Coast for the next month. Now in Los Angeles, Bill expects to head for San Francisco in about a week, and then to Seattle, Wash. In these travels, who knows where Gersh may alight. He may show up anywhere along the coast during the next few weeks.

C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN
DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN
LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR
PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR
PAST THREE WEEKS
- XX — MEANS NO PRICES QUOTED FOR
MANY WEEKS—PRICE SHOWN
IS LAST KNOWN QUOTATION.

IMPORTANT

Machines underlined mean these were most active
in trading the past week.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. From the first settlers to the present day, the nation has evolved through various stages of development. The early years were marked by exploration and settlement, followed by a period of rapid expansion and industrialization. The American Revolution was a pivotal moment in the nation's history, leading to the establishment of a new government and the declaration of independence. The 19th century was a time of great achievement, with the nation expanding its territory and developing its economy. The 20th century has been a period of significant change, with the nation facing new challenges and opportunities. The history of the United States is a testament to the resilience and spirit of its people.

1. The first settlers arrived in the United States in 1492.	2. The American Revolution was fought in 1775-1781.
3. The United States declared its independence in 1776.	4. The nation expanded its territory in the 19th century.
5. The industrial revolution began in the United States in the 18th century.	6. The nation faced new challenges in the 20th century.
7. The American Civil War was fought in 1861-1865.	8. The nation achieved significant economic growth in the 20th century.
9. The United States played a major role in World War II.	10. The nation continues to evolve and grow today.

Maybe Nero just liked music... and so do we, BUT WE DON'T FIDDLE! During the war we have been making remarkable discoveries in the field of electronics—discoveries that we are now turning into extra profits for the music operator. Under the expert leadership of "Rudy" Greenbaum, the Regional Managers pictured here are the heart of our radio-phonograph sales and service forces. The district men and their staffs, under the supervision of these capable men, will give operators the utmost in professional services. There's no "Come and get it" with Aireon... these experienced men will bring it to you in the field. Just another of our many operator services that are causing music men the country over to say...
